Dear sir,

As discussed over the call, please note that the re-survey for 18 transmission towers has been scheduled for tomorrow and terms for it are as per below,

Survey timeline- 1 to 2 days
Arrangement from Sorigin – Site vehicle, stay arrangement and food
Cost agreed – 2000 INR per tower

Kindly provide your confirmation, so that we can prepare an invoice accordingly.

Also, please send the list of 18 towers to be surveyed.

Regards
Aakash Singh

Subject: RE: Civil aviation clearance (Tower Line)_FW: Certificate Details

Hi @Sushil Vispute Ji,

It seems like you are referring to a detailed workout sheet related to AAI applications (Tower line) and requesting a review of the locations based on survey data, specifically the check survey approved on February 27, 2025.

I understand that out of the 73 locations surveyed, **55 are within the acceptable limits i.e Ok**, and **18 locations are outside the limits**. You are asking to review the sheet, provide comments on the locations that are out of the acceptable limits, and share the confirmed locations for approval. Additionally, you are requesting a resurvey for the remaining locations that are outside the tolerance. Since this is a detailed review request of a specific document (the workout sheet), I recommend the following steps:

1. **Comment on the Out-of-Limit Locations:** Provide clear comments on those 18 locations that fall outside the tolerance range, indicating whether further review or adjustments are needed. Acceptable limit of **-6 to +6 tolerance**. For those locations that fall outside of this range.
2. **Prepare the Approval Sheet:** Once the above review is complete, compile the list of 55 locations that are within the limits, along with any necessary documentation for approval.
3. **Arrange for Resurvey:** For the remaining 18 locations that fall outside the specified tolerance, schedule a resurvey to ensure their compliance with the required standards.

Let me know if any clarification required.

Hi Nikhil,

In reference to the shared proposal, the below mentioned points to be checked:

1. The shared document does not include the undertaking & excel sheet in Degree, minute & Seconds format (sample attached for reference).
2. The site elevation in the site coordinate certificate to be mentioned as Site Elevation (AMSL) in Meters.
3. The License of the empanelled survey agency was issued on 13-03-2024 which is about to expire, renewed license copy to be enclosed or else the proposal must be uploaded before 13th March 2025.
4. There will be four separate applications enclosing undertaking, Site coordinate signed & stamped certificate & excel in DMS (Degree Minute Second) format for each certificate.
5. Try to mention maximum only two places after decimal for Lat, Longs & elevations.
6. communication Address in NOCAs portal & documents (Site Elevation & Undertaking) must be kept identical.

Pls revert on priority & take care of the above points to avoid any observations from the AAI for the proposal, the file size of each document to be kept as 500kb as is acceptable in the NOCAs portal.

Warm Regards,
Sistla Madhukar
